

*Missionaries who work with the Bangalore Baptist Hospital ask you to pray for the following:*

1. The Bangalore (pronounced BANG-ah-lohr) Baptist Hospital has more than 100,000 patients every year. But the hospital does more than help sick people become well. Christians at the hospital tell patients about Jesus and they have started more than 900 churches! Most of the people who come to the hospital are Hindu – they worship many gods who are not real. Please pray that workers at the hospital will have more and more chances to tell people about Jesus and start even more churches.

2. The hospital needs strong Christians to come and work as chaplains. Hospital chaplains are ministers who help people who are sick and need spiritual strength. Pray that God will send great chaplains to the hospital in India.
3. Give thanks to God that community health programs have grown. The hospital staff goes into neighborhoods helping people know how to be healthy.
4. Not all the doctors and nurses at the hospital are Christians. Pray that medical staff will be able to hear and understand God's Word. Pray that Christian doctors will be committed to sharing their faith with other doctors and that more Christian doctors will be found to work in the hospital.
5. The hospital has a big Christmas event. Last Christmas, almost 3,000 people heard the Gospel through music, drama and the message. Pray that those people will want to know more about Jesus. Also pray for the next Christmas event.
