

Finding Out Today's temp prayer reminder

Color each thermometer to show the daily temperature where you live.

The red line on each thermometer shows what today's temperature is like in West Africa.

If today's temp ends with an even number, ask God to give the people of West Africa a strong desire to find out about Him!

If today's temp ends with an odd number, ask God to keep missionaries in West Africa safe.

If your temperature is more than ten degrees lower, ask God to give the missionaries great ideas about ways to share God's love.
